Profile: Department Of Computer Science

Introduction:

The department of Computer Science was established on 2009. This department is the integral part of Shivaji Mahavidyalaya, Renapur, Dist Latur. In this rural college, there are many students who have been learning Computer Science as their optional subject in science faculty. The department has one faculty members Mr. Kulkarni D. R. (Assistant Professor on CHB). Computer Science is one of the major subjects in sciences. At the Degree level, We give brief idea about different branches of Computer Science like Software, Hardware, Computer Algorithm, fundamental of computers, different languages, Matlab software and different software's etc theoretically. During these three years' students are familiar with different scientific instruments and they perform the assigned practical work in the computer laboratory with these instruments. Our department gives full freedom for undergraduate research by providing them required material. We take extra efforts for success of student project at undergraduate level. Our department takes extra efforts for slow learners and always tries for overall development of all students. Our departments take the different practical's which are related to different software's, languages and project work.

Objectives

- To increase the interest of students for computer with recent trends.
- To increase the interest of students to involve Research through practical approach by using different software's and languages.
- To conduct workshops, seminars and project exhibition related to computer language and software.
- The laboratory well advanced in computer with internet.
- To develop the skills of students in experimental work with advanced techniques.
- Tour of practical activities related to theoretical concepts and practical application with different software company.

SWOC Analysis of the Department

* Strength:

1. Demand ratio for Computer Science is high.
2. The laboratory is well equipped with all types of Computers, software's and equipments.

* Weakness:

1. Workshops, conference and seminar could not be organized.
2. Single faculty department.
3. Government Non- Granted department.

* Opportunities:

1. To increase the interest of students in research field
2. Very good opportunities in the abroad and private sector i.e. in engineering, technology, medicine and industries.

* Challenges:

1. Increasing awareness amongst the students about research to solve the computer problems of the society.
2. Increasing awareness amongst the students about the different Software's and languages.

* Future Plan:

1. To fulfill the faculty in the department

2. To organize conference, seminars and workshop.

1) Mr. Kulkarni D.R.
